Forecast For Northeast England
Issued by Met Office Exeter
at 1600 on Tuesday 23 Nov 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Wednesday, band of cloud and some rain moving southeast.

This Evening and Tonight:
Rather cloudy with the odd spot of rain possible, across western hills. To the east, some clear periods likely, which could allow the odd mist or fog patch to form, and chilly here. Minimum temperature 3 deg C (37 deg F).

Wednesday:
A band of cloud and outbreaks of rain, heaviest across the western hills, will move southeast. Clearer skies reaching the north late afternoon, extending south through the evening. Maximum temperature 8 deg C (46 deg F).

Outlook for Thursday to Saturday:
Thursday colder with blustery coastal showers. Into Friday conditions turning very unsettled with rain, then showers and strong winds. These conditions continue into Saturday, with some hill snow possible.
